AMERICAN HORTICULTURAL SOCIETY
CALIFORNIA HORTICULTURAL SOCIETY
ROYAL HORTICULTURAL SOCIETY (OF ENGLAND)**

Please Note

Prices. All prices herein are **strictly net**, to the trade only and for goods at our nursery unless otherwise stated. This list means what it says both as to prices and terms, and we do not deviate from them.

Pots. Prices of pot-grown stock **do not include the clay pots** and unless otherwise instructed, plants will be shipped without them. If wanted in the pots, they will be charged for at cost, but may be returned and full credit will be given.

Specimens. Prices herein are for average good plants but selected specimens will be charged for extra at actual value.

Terms. To buyers of known or established credit, **60 days net** from date of invoice. Otherwise cash with order or 25% with order, balance C.O.D. No "cash discount."

Grading. Plants wider than tall are graded by width.

Packing. At cost as usual, including paper pots if used. Plants will be packed to secure the lowest possible classification consistent with the nature of the goods shipped.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight, express or truck line.

Complaints. Must be made in writing within 10 days after buyer receives the goods.

EXPLANATION OF HARDINESS RATINGS

As this list goes all over the U. S. A. and also abroad, we believe it a good idea to indicate hardiness. This has been done by giving after the name of each item a number in () indicating the zone up to which it is considered hardy.

Our authority through Zone 7 is Rehder's Handbook. For Zones 8 to 10 we have been guided by Pacific Coast experience and have subdivided Zone 9 so that

(9) indicates probably safe to 20° (Sacramento and San Joaquin Valleys, etc.).

(9½) indicates probably safe to 25° or 26° (San Francisco Bay Region, etc.).

(10) indicates will stand only very light frost.

To find the zone you are in refer to map on center pages of this book, which we use by the courtesy of Arnold Arboretum and McGraw-Hill Book Co.

We hope this innovation will be helpful to nurserymen all over the country. Please understand that ratings show our honest opinion, but we disclaim all responsibility for their correctness.

POT GROWN AND GALLON CAN STOCK—

We find that many customers, especially those at a distance, prefer to have us remove soil and ship "bare roots" packed in moss. If you order any of this class of material please be sure to say whether you want it packed with or without soil on the roots.

California nurserymen will please note that 4-in. pot stock in body of list can usually be transferred at once to gallon cans for immediate sale, while the smaller sizes for growing on, together with 2½ and 3-in. pot stock, can be found at the end of list.

Conifers

Unless otherwise stated, all plants in this section will be balled at prices quoted.

CEDRUS deodara (7)

DEODAR CEDAR

2½ to 3 ft..... **\$2.50**

deodara repandens (7)

SPREADING DEODAR CEDAR

A decidedly picturesque tree with all its branches drooping very irregularly in a pleasing manner. Must be kept staked when young.

3½ to 4 ft..... **3.50**

3 to 3½ ft..... **3.00**

CHAMAECYPARIS lawsoniana ellwoodi (5)

ELLWOOD CYPRESS

A beautiful form of Lawson Cypress of moderate growth and columnar habit. Foliage silvery-blue, fine and lacy. Stands hot summers and winter temperature down to about 10 to 15° below zero.

18 to 24 in..... **2.00**

15 to 18 in..... **1.60**

12 to 15 in..... **1.40**

4 in. pot..... **.50**

JUNIPERUS chinensis columnaris (4)

BLUE COLUMN JUNIPER

2½ to 3 ft..... **2.00**

TAXUS baccata fastigiata (6)

IRISH YEW

2½ to 3 ft..... **3.00**

baccata var. "SILVER GREEN YEW" (6)

Nice compact, bushy form. Has rich deep green foliage with a slight silvery cast.

2 to 2½ ft..... **2.25**

1½ to 2 ft..... **2.00**

1 to 1½ ft..... **1.60**

THUYA orientalis aurea nana (5-6)

BERCKMAN'S GOLDEN ARBORVITAE

15 to 18 in..... **1.60**

12 to 15 in..... **1.40**

10 to 12 in..... **1.20**

Broad Leaved Evergreens

Unless otherwise stated, all plants in this section will be balled at prices quoted.

ABELIA floribunda (8)

MEXICAN ABELIA; RED ABELIA

4 in. pot..... .40

hyb. Edw. Goucher (6)

1½ to 2 ft..... 1.60

1 to 1½ ft..... 1.20

ARBUTUS unedo (7)

STRAWBERRY MADRONE

2 to 3 ft..... 1.50

1½ to 2 ft..... 1.20

4 in. pot..... .40

CALLISTEMON citrinus splendens (9)

BOTTLEBRUSH

4 in. pot..... .40

CAMELLIA japonica (7) (bushy)

alba plena, pure white, formal double

3 to 3½ ft..... 4.00

Arajishi (Aloha) large salmon rose.

3 to 3½ ft..... 4.00

chandleri elegans pink (Francine), rose pink; anemone-form.

2½ to 3 ft..... 3.50

chandleri elegans variegated, rose pink and white; anemone-form.

1½ to 2 ft..... 2.50

C. M. Hovey (Col. Firey), large double red, mottled white.

2½ to 3 ft..... 4.00

Kumasaka, rose pink, large peony-form.

2 to 2½ ft..... 3.00

Lady Van Sittart, deep pink; large semi-double.

2½ to 3 ft..... 3.00

2 to 2½ ft..... 2.50

Magnoliaeflora, light pink; semi-double.

1½ to 2 ft..... 2.50

Pink Ball, large double soft pink.

2½ to 3 ft..... 3.00

Red Begonia, double deep red.

4 to 4½ ft..... 4.00

3 to 4 ft..... 3.50

Sarah Frost, double rose pink.

2½ to 3 ft..... 2.75

Scarlet Beauty, double red, very large.

3 to 3½ ft..... 2.75

BROAD LEAVED EVERGREENS

CEANOTHUS gloriosus (prostrate) (8-9)

POINT REYES CEANOTHUS

A splendid prostrate form covering the ground like a mat. Foliage rich green; flowers profuse, deep blue.

4 in. pot..... .50

CHOISYA ternata (6-7)

MEXICAN-ORANGE

gal.50

4 in. pot..... .40

CISTUS Doris Hibberson (7-?)

ROCKROSE

Attractive compact shrub. Flowers are clear pink and borne freely.

1½ to 2 ft..... 1.60

4 in. pot..... .40

purpureus (6-7)

ORCHIDSPOT ROCKROSE

4 in. pot..... .40

CITRUS limon meyeri (8)

DWARF CHINESE LEMON

1 to 1½ ft..... 1.40

4 in. pot..... .50

Rangpur Lime (9½)

4 in. pot..... .50

COLEONEMA pulchrum (9)

PINK BREATH-OF-HEAVEN

1 to 1½ ft..... 1.40

CORREA harrisi (8)

RED AUSTRALIAN CORREA

4 in. pot..... .50

magnifica (C. ferruginea) (8-9)

YELLOW AUSTRALIAN CORREA

A vigorous, erect grower making a fine shrub of good size. Flowers are pendent and probably the largest in the genus. Color is a solid chartreuse green (greenish yellow).

2 to 2½ ft..... 1.60

4 in. pot..... .50

neglecta (new) (8-9)

A small, neat compact shrub bearing orange-scarlet tubular flowers in profusion from about December to April. Small, handsome foliage.

4 in. pot..... 1.00

pulchella (8-9)

PINK AUSTRALIAN CORREA

1½ to 2 ft..... 1.50

4 in. pot..... .40

COTONEASTER apiculata (4)

CRANBERRY COTONEASTER

Habit prostrate. Berries largest of all Cotoneasters, brilliant glossy red and plenty of them, maturing very early in the fall.

10 to 12 in. gfts.....	1.40
4 in. pot gfts.....	.60

CRINODENDRON dependens (8)

WHITE LILYTREE

Small tree with general appearance of a California Live Oak but bearing plenty of clustered white hanging bell-shaped flowers during the summer. In fall the seed capsules become bright red which gives it additional attractiveness.

4 in. pot.....	.40
----------------	------------

DAPHNE collina neapolitana (new) (7)

A small rounded shrub of slow growth. Flowers in clusters are rosy-pink suffused lavender covering entire bush.

9 to 12 in. bushy.....	2.00
------------------------	-------------

dauphini (7)

ROYAL PURPLE DAPHNE

12 to 15 in.....	1.00
------------------	-------------

odora varieties (7-8)

Z 30 to 36 in.....	2.75
A 24 to 30 in.....	2.50
C 15 to 18 in.....	1.50
D 12 to 15 in.....	1.20
E 10 to 12 in.....	.90

odora alba CD

odora marginata ZACDE

EMBOTHRIUM coccineum (8-9) (rare)

CHILEAN FIREBUSH

A tall, slender pyramidal evergreen tree bearing a profusion of brilliant orange-scarlet tubular flowers in terminal clusters in Spring. Requires an acid soil and part shade.

gal.	1.20
4 in. pot.....	1.00

ESCALLONIA C. F. Ball (7)

4 in. pot.....	.40
----------------	------------

Gwendolyn Anley (new) (7)

A new low growing, compact variety. Flowers flesh pink in great profusion on arching sprays.

4 in. pot50
-----------------	------------

Wm. Watson (new) (7)

A good variety of compact growth with flowers of a distinctly ruddy-cerise color.

1½ to 2 ft.....	1.50
4 in. pot.....	.50

BROAD LEAVED EVERGREENS

EUCRYPHIA billardieri (9½)

TASMANIAN EUCRYPHIA

4 in. pot..... .50

EURYOPS athanasiae (7½)

4 in. pot..... .50

FREMONTIA californica (9)

FREMONTIA

4 in. pot..... .40

GARDENIA Mystery (9)

4 in. pot..... .50

GENISTA aethnensis (8)

4 in. pot..... .40

HYMENANTHERA crassifolia (7)

An interesting shrub belonging to the Violet family with small leaves and bearing a fine crop of small white berries. Growth low and spreading.

4 in. pot..... .40

ILEX - HOLLY

4 in. pot grafts..... .60

all varieties

aquifolium var. Chambers (5)

aquifolium var. Golden Beauty (5)

aquifolium pendula (5)

cornuta burfordi (7)

JASMINUM parkeri (7)

PARKER JASMINE

A dainty miniature shrub of rounded, compact habit. Flowers bright yellow in profusion. Fine for rock gardens.

4 in. pot..... .50

LEPTOSPERMUM scoparium Double Rose (9½)

4 in. pot..... .40

new varieties (9½)

Ruby Glow, double deep red.

Scarlet Carnival, double bright scarlet.

4 in. pot..... .50

LEUCADENDRON argenteum (10) (rare)

SILVERTREE

Famous "Silver Tree" of Cape of Good Hope. Bark, branches and foliage are intensely silvery. Habit narrow and erect. For mild locations only.

4 in. pot..... .60

LIGUSTRUM ovalifolium (5)

CALIFORNIA PRIVET

field grown, bushy; bare roots.

3 to 4 ft..... \$75.00 per 1000

2 to 3 ft..... 50.00 per 1000

1 to 2 ft..... 40.00 per 1000

LOROPETALUM chinense (7)

FRINGEFLOWER

A medium sized compact evergreen shrub of the Witchhazel Family. The fleecy white flowers borne in the spring are so distinct that they compete well with other white spring flowering shrubs. Flowers very young, even in 4 inch pots. Requires acid soil and part shade.

4 in. pot..... **.50**

MAGNOLIA grandiflora (7)

SOUTHERN MAGNOLIA

4 in. pot..... **.40**

NERIUM oleander (9)

all varieties

B 3 to 4 ft..... **1.75**

C 2 to 3 ft..... **1.50**

D 1½ to 2 ft..... **1.20**

E 4 in. pot..... **.40**

Comm. Barthelemy, double red. BDE

Double Pink, DE

Double White, CDE

Double Yellow, CDE

Mrs. Roeding, CDE, double salmon pink.

Mrs. Swanson, CDE, double soft pink.

Prof. Bodkin, BDE, single red.

Single White, BDE.

OLEA europea (8)

OLIVE

4 in. pot..... **.40**

OSMANTHUS armatus (7)

CHINESE OSMANTHUS

1 to 1½ ft..... **1.50**

4 in. pot..... **.50**

aurantiacus (9)

ORANGE OSMANTHUS

1 to 1½ ft..... **1.50**

4 in. pot..... **.50**

delavayi (7-8)

DELAVAY OSMANTHUS

Shrub of compact habit, arching branches, small attractive foliage and in early spring has the largest and possibly the richest scented flowers of the genus.

1 to 1½ ft..... **1.50**

ilicifolius (6)

HOLLY OSMANTHUS

4 in. pot ctgts..... **.50**

suavis (7)

3 to 3½ ft..... **2.25**

BROAD LEAVED EVERGREENS

PHOTINIA arbutifolia (8-9)

CHRISTMASBERRY; TOYON

4 in. pot..... .50

serrulata nova (7)

CHINESE TOYON

3 to 4 ft..... 2.50

2 to 3 ft..... 1.75

1½ to 2 ft..... 1.60

4 in. pot..... .40

serrulata nova lineata (7) (new)

REDTWIG CHINESE TOYON

A very attractive "sport" of *P. serrulata nova*. New foliage is very light bronze and matured leaves are dark green marked white along midrib. Bark on new growth is a vivid bright red. Plants offered are grafted and will berry very young.

1½ to 2 ft..... 2.00

1 to 1½ ft..... 1.60

4 in. pot..... .60

POMADERIS elliptica (9½)

GOLDEN-TAINUI ANZACWOOD

4 in. pot..... .40

PYRACANTHA hyb. San Jose (7)

SAN JOSE FIRETHORN

Bears the largest berries in heavy clusters we have ever seen on a *Pyracantha*. Color is red with slight orange tone. We believe this form has an "edge" on all other varieties.

gal. berried50

4 in. pot..... .40

RAPHIOLEPIS indica rosea (7)

PINK INDIA RAPHIOLEPIS

A great favorite. Its attractive foliage assumes beautiful bronzy winter tints. Flowers are soft pink borne profusely in clusters in spring and are followed by blue berries. Its habit is low and compact so will not grow out of bounds in a few years.

1½ to 2 ft..... 2.00

1 to 1½ ft..... 1.60

4 in. pot..... .50

ROMNEYA coulteri (5)

MATILIJ POPPY

4 in. pot40

VIBURNUM burkwoodi (5)

BURKWOOD VIBURNUM

2 to 2½ ft..... 1.75

1½ to 2 ft..... 1.60

1 to 1½ ft..... 1.40

4 in. pot..... .50

Flowering Fruit Trees

All plants in this section will be dug "bare roots."

FLOWERING PEACHES (4)

6 to 8 ft.....	.60
4 to 6 ft.....	.45
3 to 4 ft.....	.40

Aurora, soft flesh pink

Burbank, large shell pink

Camelliaflora, red; late

Early Double Red

Double White

Helen Borchers, large pink

Peppermint Stick, variegated

FLOWERING PLUMS

6 to 8 ft.....	.60
4 to 6 ft.....	.45
3 to 4 ft.....	.40

blirieana (5), double pink; purple leaved.

Hollywood (5)

Leaves deep green above, red beneath. Bears small white flowers in great profusion on long shoots excellent for cutting. Also bears a good crop of well flavored fruit which ripens very early.

pissardi (3), single white, purple leaved.

Thundercloud (4)

Has the deepest purple foliage known in plums. Leaves do not turn green but hold their color all summer and even until they fall.

Deciduous Trees

All plants in this section will be dug "bare roots."

ACER dasycarpum (3)

SILVER MAPLE (heavy)

10 to 12 ft.....	1.60
8 to 10 ft.....	1.35
6 to 8 ft.....	1.10

AESCULUS carnea brioti (3)

RUBY HORSECHESTNUT

Flowers are bright scarlet. Grafted trees start blooming when only five or six feet tall. Few hardy trees have such showy flowers.

4 to 5 ft. grafts.....	3.00
------------------------	------

BETULA alba (2)

EUROPEAN WHITE BIRCH

6 to 8 ft. heavy.....	1.20
-----------------------	------

DECIDUOUS TREES

alba fastigiata (2)

PYRAMIDAL WHITE BIRCH

Growth narrowly columnar, similar to Lombardy Poplar. Has the same white barked trunk as the type and noticeably deeper green foliage. An excellent street tree where there is limited space for trees to spread.

5 to 6 ft.....	1.25
4 to 5 ft.....	1.00

alba Cut Leaf Weeping (2)

5 to 6 ft.....	1.10
4 to 5 ft.....	.85

alba Young's Weeping (2)

All branches droop in a most pleasing, informal manner. Trees are staked to form an erect trunk. Bark is snow white. Useless as a street tree but a striking addition to any good garden.

4 to 5 ft.....	1.00
----------------	-------------

CERCIDIPHYLLUM japonicum (4)

KADSURA TREE

gal.80
4 in. pot.....	.60

CRATAEGUS - HAWTHORN

Autumn Glory (5)

(formerly called Crimson Glory)

A vigorous tree of erect growth with foliage like English Hawthorn. Flowers white followed by a remarkable profusion of large, brilliant red berries borne all along the branches. East of the Rockies obtainable through Wayside Gardens, Mentor, O.

Sold Out for Coming Season

cordata (4)

WASHINGTON THORN

5 to 6 ft.....	1.35
4 to 5 ft.....	1.10

DIOSPYROS kaki var. Hachiya (7)

PERSIMMON (grafted)

4 to 6 ft.....	1.50
3 to 4 ft.....	1.25
2 to 3 ft.....	1.10
1½ to 2 ft.....	1.00

FRAXINUS velutina glabra (7)

MODESTO ASH

A very fine shade and street tree of vigorous growth and glossy foliage. Particularly popular in dry, hot regions.

8 to 10 ft. heavy.....	1.25
6 to 8 ft. heavy.....	1.00
5 to 6 ft.....	.80

DECIDUOUS TREES

LABURNUM vossi (5)

LONGCLUSTER GOLDENCHAIN

Flowers are pure golden yellow formed like those of Japanese Wisteria. The hanging clusters attain as much as 18 to 20 inches in length and are borne very profusely in late spring. Worth a place in any good garden.

6 to 7 ft. branched.....	1.50
5 to 6 ft. branched.....	1.25
4 to 5 ft. branched.....	1.00
3 to 4 ft. branched.....	.80

LIQUIDAMBAR styraciflua (4)

SWEETGUM

gal.60

ULMUS pumila (4)

SIBERIAN ELM

6 to 8 ft.....	1.00
5 to 6 ft.....	.80

HARDI NESS MAP

HOW TO USE THIS MAP

From it determine what zone you are in. Every item carrying your zone number **or a smaller number** should be hardy with you. If you want to gamble on those rated **one zone greater**, there is at least a chance for success but two zones greater will probably be hopeless.

For full explanation of the entire system see Page 1.

Lilacs

SYRINGA vulgaris (3)

We fully believe that our active propagating list embraces the most up-to-date collection of lilacs offered to the trade in this country. Just before the war we imported Lemoine's latest to bring our list right up to that date. It seems absurd to see so many ancient varieties still being listed. They were all right when originated 75 or 100 years ago but there has been plenty of progress in the meantime, particularly in the size of the individual flowers or "florets" as they are sometimes called and also in a wider range of color tones. If your collection is not really up-to-date why not do something about it?

Lilacs must be ordered in multiples of 5 of each variety as they are bundled that way when dug.

NOVELTIES

Several lilacs originated by us are now being introduced on an exclusive basis by certain first-class retail catalog houses who wish "leaders" of high quality. Most of these will be patented. We have a few more of these lilacs ready for introduction and shall be glad to explain the arrangement on request.

Our latest originations which, with two exceptions, are now offered and described for the first time in our annual pricelist. All are patented or patent applied for.

PRES. LINCOLN, single, blue.
PROF. E. H. WILSON, double, white.
VESTALE, single, white.

Oriental Magnolias

We grow what is probably the most complete collection of deciduous magnolias in this country. During the war years seed for suitable grafting stocks was practically unobtainable. We are rapidly catching up and have the largest stock this season since the war, but demand much exceeds supply so that everything is either completely booked up or so nearly that we cannot risk offering anything else here. After all orders have been filled we may have a few available.

Flowering Quinces

Chaenomeles (Cydonia)

Several quinces originated by us are now being introduced on an exclusive basis by certain first-class retail catalog houses who wish "leaders" of high quality. Most of these will be patented. We have two or more of these quinces ready for introduction and shall be glad to explain the arrangement on request.

C. cathayensis and its hybrids (6)

All others (4)

Our 16 years of work in breeding better forms of Flowering Quinces has been recognized by both California Horticultural Society and Royal Horticultural Society (of England) by their Awards of Merit.

With two or three exceptions every variety we now offer was originated by us.

N. B.—Varieties followed by (C.H.) are Cathayensis Hybrids. They are rated (6) for hardiness so not recommended for Zone 5 and colder. All others are safe wherever any flowering Quinces thrive.

NOVELTIES

AFTERGLOW (5), Pat. No. 847

Flowers are large, **double** and at first snow white gradually becoming soft rose as the blooms age. Leaves are dark green, long and slender. Growth is vigorous. It is a seedling of Mt. Everest which it resembles in most ways except that this has double flowers. We regard it very highly indeed and believe it will become very popular.

We cannot accept orders for this from the South-eastern States, including Texas, as exclusive arrangements have been made with H. G. Hastings Co., Atlanta, Georgia, for its distribution there.

3 to 4 ft.....	1.60
2 to 3 ft.....	1.40

CHARMING (5)

Long, unbranched, thornless shoots bear a profusion of soft shell pink flowers deepening toward the ends of the petals. An orderly shrub attaining a height of about 6 ft. East of the Rockies it is obtainable thru Wayside Gardens, Mentor, Ohio.

1½ to 2 ft.....	1.20

SPECIAL LIST

2 to 3 ft.....	1.20
1½ to 2 ft.....	.90

CARDINAL (C.H.), very deep red.

CORAL BEAUTY, rosy coral, lighter center.

CRIMSON BEAUTY, brilliant rose.

CYNTHIA (C.H.), soft peach pink.

HARLEQUIN, bicolor; inside Chinese coral, outside and tips are deep rose.

MARGARET ADAMS, soft coral pink.

PINK LADY, clear pink.

SNOW, white.

DECIDUOUS SHRUBS

GENERAL LIST

C	2	to 3 ft.	1.00
D	1½	to 2	ft.75
E	1	to 1½	ft.60

BLOOD RED, DE

CRIMSON & GOLD, CD

EARLY APPLEBLOSSOM, CD, blend of light and deep pink.

FLAMINGO, CD, brilliant red.

MT. EVEREST, C, white, lightly flushed lavender rose.

PINK BEAUTY, (C.H.) CD, rose pink.

ROSEMARY (C.H.) CD, deep rose.

STANFORD RED, CD, tomato red.

Deciduous Shrubs

Unless otherwise noted, all plants in this section will be dug "bare roots."

CARYOPTERIS clandonensis (5)

BLUE MIST

2 to 3 ft. **.60**

CHIMONANTHUS praecox grandiflora (7)

IMPROVED WINTERSET

A rare large flowering form of the plant known as *Calycanthus praecox* or *Meratia praecox* so greatly esteemed for its very early, intensely fragrant yellow flowers. Blooms from Dec. thru March.

2 to 3 ft. **.80**

CHIONANTHUS retusus (5)

CHINESE FRINGETREE

A rare and beautiful white, fragrant flowered shrub. Hardy at the Arnold Arboretum in Boston. Thrives in a somewhat moist sandy loam and in a sunny location.

4 in. pot grafts. **1.00**

CORNUS florida (4)

FLOWERING DOGWOOD

gal. **.50**

4 in. pot. **.40**

DAUBENTONIA tripettii (8-9)

"SCARLET WISTERIA TREE"

gal. **.50**

4 in. pot. **.40**

DECIDUOUS SHRUBS

FRANKLINIA alatomaha (5)

(Gordonia alatomaha)

Bears cup-shaped or Camellia-like fragrant white flowers 2 to 3 in. in diameter. Foliage assumes the richest autumn tints of any hardy shrubs. It is as lovely as it is rare and will stand many degrees of frost, being hardy to Mass. Requires semi-shady position in acid soil.

gal.85
4 in. pot.....	.75

HYDRANGEA macrosepala (5)

4 in. pot.....	.50
----------------	-----

LABURNUM lolaburnum (new) (5)

Briefly this is a Laburnum vossii that grows as a branching shrub instead of a tree. It has the same fine, very long clusters of golden flowers. Ultimate height unknown but probably not over 7 or 8 ft.

2 to 3 ft.....	1.25
1½ to 2 ft.....	1.00

PAEONIA suffrutcosa (5)

TREE PEONY

Seedling plants that have bloomed and were graded according to color, number of petals, size, etc. Available in assorted colors of rose, lavender, purple, white, and intermediate shades.

field grown 8-12 years, balled.

VIBURNUM carlesi (4)

KOREANSPICE VIBURNUM

1½ to 2 ft.....	1.25
1 to 1½ ft.....	1.00

erubescens (5)

Well worth planting for its beautiful foliage alone. Leaves are large, deep glossy green. Leafstalks are red, making a handsome contrast. Flowers are white in showy drooping racemes followed by berries at first red and finally black.

4 in. pot..... .50

fragrans (5)

Shrub of moderate size and rather slow growth bearing clusters of pink, intensely fragrant, flowers. Blooms sporadically during late fall and winter with main crop in spring.

4 in. pot..... .50

ichangense (6-?)

ICHANG VIBURNUM

When only a foot or two tall this small shrub commences to bear many clusters of white flowers followed by small glistening red berries which last well.

4 in. pot..... .50

setigerum (5)

(V. theiferum)

TEA VIBURNUM

Easily ranks among the finest of the hardy Viburnums. In spring the foliage is handsomely bronzed but later becomes clear green. Berries are borne profusely in drooping clusters and are bright vermilion or Chinese red.

4 in. pot..... .50

WEIGELA (5)

1½ to 2 ft..... .60

Eva Rathke, red

Floreal, carmine tinted rose

Le Printemps, soft rose opening to light pink

Newport Red, deep rose

rosea, pink

Springtime, rose outside, flesh within.

XANTHOCERAS sorbifolia (5)

SHINYLEAF YELLOWHORN

One of the most beautiful deciduous flowering shrubs. Growth strong and upright. Leaves pinnate resembling those of Mountain Ash. Flowers are funnel-shaped with five white crinkled petals borne in erect panicles. At base inside are five little bright yellow horns, also a conspicuous yellow blotch which soon turns red. Blooms most profusely in late spring. Can be shipped bare roots from Gal. cans.

4 in. pot..... .50

Climbers

CAMPSIS grandiflora (7)

CHINESE TRUMPET CREEPER

Better known as *Bignonia chinensis* or *B. grandiflora*. It is easily one of the handsomest deciduous climbers where it is sufficiently hardy. It is not rampant so not likely to get much more than 10 feet tall. For several weeks in summer it covers itself with great terminal sprays of large funnel-shaped yellowish flowers suffused at tips with orange red.

1 yr. field grafts..... **.75**

Mme. Galen (5)

While the common Trumpet Vine (*Tecoma radicans*) is practically a weed, its marriage to *C. grandiflora* resulted in this gorgeous hybrid which combines the hardiness of the former with the beauty of the latter. It is a stronger grower than *C. grandiflora* but much less rampant than *T. radicans*. The flowers which also are borne in large clusters at end of shoots are almost as large as those of *C. grandiflora* and much redder. It blooms all summer and when in full bloom is a solid mass of flowers. It is really a particular clone of the hybrid *C. tagliabuana*. We quote from a Bulletin of Arnold Arboretum: "While it is occasionally seen in eastern gardens, it is almost unknown in the middle west, where Trumpetcreepers grow unusually well. It is a splendid ornamental vine and is deserving of far wider recognition in American gardens." Anticipating a heavy demand we have worked up a large stock of field grown grafted plants and hope to be able to fill all orders.

PILEOSTEGIA viburnoides (7)

4 in. pot..... **.40**

TRACHELOSPERMUM - STAR JASMINE

all varieties

4 in. pot..... .50

asiaticum (7)

While the white flowered Chinese Starjasmine (*T. jasminoides*) is well known and a great favorite, this is far from common. The flowers of similar size and form are primrose-yellow with orange "eye" and have the rich fragrance that characterizes the genus. The beauty of the evergreen vine is enhanced by the ruddy bronze hue of new growth. Blooms moderately when very young and most profusely as it gets older. It has the additional advantage of being considerably hardier than *T. jasminoides*.

japonicum (8)

The dark evergreen foliage is marked with white veining and later becomes bronzy. Flowers are white or creamy but not definitely yellow.

jasminoides (8-9), STAR JASMINE, white
also balled 1½ to 2 ft..... 1.50

longifolium (9½)

We can say little except that it has long narrow leaves, as it should. We imported it from Ireland "on suspicion" as even the seller gave no description of the flowers. All other *Trachelospermums* we have are good and this probably is.

Wisteria

For 31 years Wisterias have been one of our most important items. Our collection is one of the most complete known. During war years our stock was badly depleted due to absence of seed for grafting stocks. We are now back to normal and have a really large stock of grafted plants in both climbing and tree form in all varieties we propagate.

Roses

We are members of **All America Rose Selections** which gives us first access to the annual All America Winners.

We grow three types extensively. **Bush and Climbing, Standard or Tree, and dormant or started eye plants for greenhouse forcing.**

STANDARD OR TREE ROSES

For the coming shipping season we are completely booked up and can accept no further orders for No. 1 or No. 1½ grades.

BUSH AND CLIMBING ROSES

Our stock for the coming fall and spring delivery is "tops." Refer to Rose List No. 5005. If you have not received a copy, one will be mailed on request.

JUNE-BUDDED GREENHOUSE ROSES

List of varieties and price sent on request.

LINING OUT STOCK

Many Broad Leaved Evergreens and Conifers available from 2½ inch pots. This size is much stronger than the usual 2 in. pot size commonly used as liners. Quotation on request.

IMPORTANT NOTICE FOR EASTERN NURSERYMEN

Out here everything east of the Rockies is "Eastern"!

During January and February we ship several heated refrigerator cars to eastern points. Where size of order justifies, we can nearly always arrange for carload service to destination or some nearby point for pickup or reshipment. The total transportation charges for each car will be prorated among all customers who have goods in it.

For many years we have also safely made l.c.l. spring shipments by freight to any eastern points by using the southern route via New Orleans or St. Louis. This brings material at proper time to customers not conveniently located for carload service and avoids the freezing weather of the northern route. The freight rate is usually the same.
